

Project Profile

Vasquez Rocks Natural Area Park Interpretive Center

Building Use: Visitor Center

Scope of Work: Metal Roofing, Sheet Waterproofing

Project Data

Location

Agua Dulce, CA

General Contractor

PCL Construction Services

Project Value

\$212,000.00

Completion Date

November 2012

Vasquez Rocks, located in the high desert near Agua Dulce Springs, features 932 acres of spectacular rock formations, Tataviam Indian sites, and a seasonal stream. The rocks' history began in prehistoric times when the sandstone rocks were uplifted at a picturesque angle, showing their jagged red features.

BEST supplied and installed 22,000 SF of curved standing seam metal roofing formed on site to a 15 foot radius, 9,000 sf of Standing seam metal wall panels, metal fascia and flashings, R19 rigid insulation and self adhering sheet waterproofing.
