## PROJECT PROFILE DATA

---

Location  
Santa Rosa, CA

Customer  
Alten Construction, Inc.

Project Value  
\$835,000

Completion Date  
November, 2017

Roseland University Prep High School first opened in 2004 with approximately 80 students offering college prep courses in a small community learning environment with a largely Hispanic population. Significant importance was given to creating a positive and welcoming atmosphere with emphasis on exposure to light and nature. The school's population increased to over 350 students in 2007/2008. U.S. News and World Reports ranked Roseland as the seventh best public high school in California, and the first of the best in the U.S. for the year 2012.

BEST was selected to furnish and install 17,700 square feet of Metal Sales Roof Panels along with 12,700 square feet of Wall Panels. Sarnafil Thermoplastic Membrane Roofing was applied over an area of approximately 800 square feet.
