## PROJECT PROFILE DATA

---

### Location

Huntington Beach, CA

### Customer

Coast Community  
College District

### Project Value

\$634,474.00

### Completion Date

March, 2018

Part of the multi college campus sites in the Coast Community College District, construction of the new 51,969 square foot Student Services Building began in 2014 with funds from Measure M.

BEST was selected to furnish and install approximately 600 linear feet Exterior Metal Soffit Panels by AEP Span; 1,900 square feet of Reynobond Aluminum Composite Metal Panels, along with Flashings & Sheet Metal, Roof Hatches, Joint Sealers and Expansion Joint Cover Assemblies. This project was successfully completed on time and on budget.
