

FOR IMMEDIATE RELEASE:

## Best Contracting Services Receives GAF's Prestigious 2018 President's Club Award

Gardena, CA – March 27, 2018: Best Contracting Services, Inc.

Best Contracting Services, Inc., of Gardena, California, has received the most prestigious contractor award GAF offers: The GAF President's Club Award. This highly coveted award recognizes Best Contracting Services as one of the "elite of the elite" commercial roofing contractors in the United States.

GAF is North America's largest roofing manufacturer, and only GAF Master Select<sup>(TM)</sup> Contractors can compete for its commercial President's Club Award. To qualify for this award, a commercial roofing contractor must meet specific criteria in at least one out of three different pathways:

- Performance pathway - where contractors focus on giving their property owners the best possible service, quality, and protection
- Reliability pathway - where the contractor has a long history of offering their customers the best quality and protection
- Service pathway - where contractors consistently offer their customers the best protection available in the marketplace.

Best Contracting Services has been a GAF Master Select(TM) Contractor since 2002. To become a Master Select<sup>(TM)</sup> Contractor—a status that less than 1% of roofing contractors nationwide are able to achieve—a candidate must demonstrate proper licensing, maintain insurance (in states that require it), have a proven reputation, and show commitment to ongoing professional training.

*"We value our certified contractors for raising the industry standard year after year by installing the best roofing products and systems. Our President's Club award recognizes only those contractors who have distinguished themselves by the highest standards of excellence, customer satisfaction, and dependability,"* says Jim Slauson, GAF's VP of Certified Program & Services.

As an approved applicator for most types of roofing, including single-ply, built-up, modified bitumen, tile and shake, metal, and foam, Best Contracting Services uses experienced crews who have been factory-trained for each type of roofing system. The company's services including roofing, waterproofing, glazing, architectural metal panels, concrete restoration, and HVAC. Best is also skilled with green construction, including solar systems, cool roofs, daylighting, and vegetated roofs. The company provides water-testing and 24/7 emergency leak-repair services.

Best Contracting Services has received several professional certifications from GAF. The Asphaltic Certification indicates that the contractor specializes in installing asphaltic roofing systems, and the Single-Ply Certification indicates a specialization in installing single-ply

roofing systems. With the Topcoat Certification, Best Contracting Services is recognized for specializing in the installation of GAF's TOPCOAT(R) products—liquid-applied roofing restoration systems formulated to stand up to the harshest of roof conditions and provide energy savings at a fraction of the cost of a new roof.

Active in the industry, the company is a member of National Roofing Partners, National Roofing Contractors Association, Roofing Contractors Association, Union Roofing Contractors Association, National Glass Association, Associated Roofing Contractors of The Bay Area Counties, Roof Consultants Institute, Western States Roofing Contractors Association, and Sheet Metal & Air Conditioning Contractors National Association. Projects completed by or involving the participation of Best Contracting Services have received industry awards, including *Engineering News-Record's* awards for Best Health Care Project and California's Best Project Award and Award of Merit of the Airport/Transit Division. The company was also the recipient of the 2015 Metal Construction Association Chairman's Award.

The company's continuing mission is to be a professional, diverse specialty-contracting organization that provides the highest quality building envelope services. By seeing roofing problems through the clients' eyes, Best Contracting Services provides sound economical solutions with a client's best interests in mind—not only solving the problems but making customers feel good about the results.

#### About Best Contracting Services, Inc.
