

PROJECT PROFILE DATA

Location
Los Angeles, CA

Customer
PCL Construction Services

Project Value
\$1,421,874

Completion Date
September, 2017

Built at a cost of \$35,000,000, the Mo Ostin Basketball Center is a two-story 35,000 square foot state-of-the-art facility designed with practice courts illuminated by ambient lighting and overhead lights activated by motion sensors. Two 1,500 square foot locker rooms lead directly to the Ann Meyers Drysdale Women's Practice Court and the Russell Westbrook Men's Practice Court. Both the women's and men's teams have conference rooms that overlook their respective practice courts, and share a 24 seat video room as well as training and weight rooms.

BEST was selected to furnish and install Traffic Coatings, Fluid-Applied Air Barriers, Cementitious and Bentonite Waterproofing as well as Thermoplastic Membrane Roofing.

UCLA Mo Ostin Basketball Practice Facility

BUILDING USE: Sports Facility
SCOPE OF WORK: Waterproofing, Thermoplastic Membrane Roofing
